EXPERIENCE

General	17 years
Project	17 years

PROFESSIONAL PROFILE

Involved in all project types ranging from high-end residential, commercial, educational, and industrial over the past 17 years. Actively participated in all phases of project development including: Project procurement, Market and Business development, Master planning, Facility assessments, Project management, Design and Document development, Budget management, Staff oversight and Construction administration. A unique area of expertise includes Building Forensics, which includes diagnosing moisture, structural, and thermal issues and providing solutions to the problems. A strong working partnership with Engineers has provided a firm understanding of Sustainable and Energy Efficient design. Effectively communicates with all stakeholders throughout projects from procurement through completion. David represents the Architectural Division for both our Harrison Maine office and New Haven Connecticut office.
