

MILLIPORE CLEANROOM COMMISSIONING

Owner: Millipore Corporation

Scope of Work: Commissioning

Location: Danvers, Massachusetts

This project was to provide enhanced commissioning services for a class 10,000 cleanroom facility expansion, renovation and LEED certification.

Commissioning is the process of ensuring that the building's energy related and comfort systems are designed, installed, calibrated, and perform according to the Owner's Project Requirements (OPR), Basis Of Design (BOD), and construction documents Turner Group was involved throughout the design, construction and finalization of the project.
